

Permit Application History
for the Deremo Mine
Union Carbide ACT/037/025

June 23, 1977:

The Mining and Reclamation Plan was received at the Division for a 10 year, 7 acre disturbance.

April 12, 1978:

The Division inspected the minesite which straddles the Colorado-Utah border.

November 17, 1978:

The Division received a notice of where the bonding requirements should be sent.

November 27, 1978:

An Executive Summary was prepared for the operation.

December 14, 1978:

The Division sent copies of the MR-8 form for signature. A memo was sent to the Board containing the executive summary.

December 21, 1978:

The Board gave tentative approval for the operation.

December 28, 1978:

Notice was sent to Union Carbide of the decision.

December 29, 1978:

Publication notices were printed.

February 4, 1979:

The Division requested surety contract forms for the operation.

May 2, 1979:

A fully executed contract was sent to Union Carbide along with final approval.

December 15, 1980:

The 1979 Annual Operations and Progress Report was received.

January 2, 1981:

The Division requested a 1980 Annual Report.

March 4, 1981:

The 1980 Annual Report was received.

February 4, 1982:

The 1981 Annual Report was received along with notice that operations were suspended, ("on hold"). The Division responded with an acknowledgement and suggestion for a site visit.

March 24, 1983:

The Division received the 1982 Annual Report and an updated map. Site disturbance has been limited to only 4.2 acres. Operations obviously had recommenced. No changes appear to have occurred in surface disturbance in Utah.

April 22, 1983:

This history was prepared.
